

## Curriculum Vitae **Gábor Sillye**

### **Spectrum**

**SAP BC, UNIX and NT Systemadministration, ABAP/4 and SAP Programming, C, C++ and Shell-Programming, Perl, Informix and Embedded SQL, Packaging under UNIX, SQL Programming, DOS Batch Script**

### **Personal particulars**

---

Date of birth	4. 29. 1959
Qualification	University Moscow, University degree Engineer Mathematical  Apáczai Csere János Grammar-school Budapest
IT-practic since	1985

### **IT-Knowledge**

---

Operating systems	UNIX, Linux, SCO UNIX, Xenix, SINIX, SunOS, MS-DOS, Windows95/98/ME, WindowsNT
Programming / Tools	C, Assembler, X/SDE, CROSS BASIC, ABAP/4
Databases	DBase, Informix, Oracle
Standardsoftwares	Microsoft Office products, Exceed
Other systemsoftwares	Networker Backup-Software
Another Knowledge	C and Shell programming

## Other Knowledge

---

Branches	<b>Finance, Logistic, Bank, Sale, Costing</b>
Languages	<b>Hungarian – native Russian – very good German - very good English - medium French - good</b>

## Projects

---

### **09/2011 – Lupus Consulting Kft Budapest**

#### **ABAP/4 Programming**

Programming in ABAP/4

ABAP/4

I work from September 2011 at Lupus Consulting Kft., like ABAP/4 developer. I supported Stihl Germany and I have developed System for Repertory SW in ABAP/4. I have worked 3 months in Project Reimplementation SAP for MVM in Budapest.

### **10/2005 – 08/2011 Mind System Consulting Kft Budapest**

#### **BC Consultant and ABAP/4 Programming**

BC System administration and Programming in ABAP/4

ABAP/4, Visual BASIC

I work from November 2005 at Mind System Consulting Kft, at first like a BC consultant than like an ABAP/4 programmer. I supported 8 SAP systems (install, Service packages, upgrade etc...) afterwards I shared in following projects:

- ABAP/4 Form programming (B&J 4.7, OREX 6.0, Aranypók 6.0, Retro, Libri, Trend),
- Transaction programming (RABALUX),
- OLE programming (PANTEL).

### **07/2005 – 09/2005 Lufthansa Systems Budapest**

#### **UNIX Systemadministrator**

Administration of SUN systems

C, Shell

I worked from July 2005 like a system administrator at Lufthansa Systems Budapest. During this time period I supported more than 150 SUN systems.

**09/2003 – 06/2005 Itelligence Hungary Kft**

**Informatics consultant**

Programming in ABAP/4, C++ and BASIC

ABAP/4, C++, BASIC

I worked from September 2003 like a programmer at Itelligence Hungary Kft. During this time period I worked on the following:

- ABAP/4 form-programming (Frimo),
- C++ interface between SAP PM module and C++ programs (Geometria Kft, Vízmű)
- CRM interface (Reemtsma Hungary)
- Basic programming in sales module (BSH Kft).

**01/2001 – 09/2002 GFT at Deutsche Post AG Darmstadt, Germany**

**UNIX-Systemadministrator**

UNIX-system administration of project C200.

SUN migration BZL/DPE, package generating for system and application.

Shell, C

UNIX-system administrator in the projects C200 at Deutsche Post.

Administration of 2 SINIX-development servers (1 like file-server), 3 SINIX-training servers, 2 SUN-development servers and 4 SUN-delivery servers (2 pro Cluster V2.2).

I worked in a team of 30 JAVA-programmers and database specialists. I performed the following tasks: administration of user accounts and network administration, installation and configuration of development servers, maintenance of file system and of shares for Microsoft Clients, support to SW development and maintenance in relation to the utilisation of system resources, control and maintenance of system and data backups.

**01/1997 – 12/2000 Apcon IBS Ltd (in the meantime renamed as Itelligence Ltd) Budapest**

**Systemadministrator, Analytic und Programmer SAP & COMET**

Installation and administration of operating system SINIX and application. Programming in Financial Accounting, Costing, Sales, Buying, Management of Store (COMET). Programming in FI, CO, Bankinterface (SAP) Training and course of UNIX operating system and application for customers

SINIX, CROSS BASIC, C, R/3, ABAP/4

**SAP projects:**

Reemtsma, Continental TEVES, DM, ITT, Spar (today EDEKA), Wienerberger, Vogel & Noot, ZFH

Tasks:

Programming of different Bank-interface between SAP and Bank-SW (payment Creditor), reporting, lists.

**COMET:**

Projects:

Reemtsma, Siemens iii-Center, Bosch-Siemens Hausgeräte, Phoenix Contact, HAMA,

Tasks:

Installation of SINIX operating systems and Cross BASIC, COMET. Programming of different interfaces in C, Cross Basic, Shell.

10/1994 – 12/1996

**CONSULTING AG Switzerland**

**Systemadministrator, Analytic and Programmer ALX-COMET**

Systemadministration of SINIX operating system.  
Programming the Payment Creditor and different Banksystems: Switzerland, Italy, Spain, Austria. Nationalisation of Applicationssoftware ALX-COMET in Switzerland, Spain, Italy. Installation, analysis, programming

SINIX, X/SDE, INFORMIX, CROSS-BASIC, C

04/1992 – 09/1994

**ECODATA Ltd Budapest**

**Systemadministrator, Analytic and Programmer of COMET and TRADERS**

Installation of UNIX (Targon, SINIX) operating systems and COMET application. Programming in Finacial Accounting, Costing, Sales, Buying, Management of Store (COMET). Installation, customer support and programming in Traders (MALEV – hungarian Airlines). Installation, analysis, programming

SINIX, SCO UNIX, X/SDE, INFORMIX, CROSS-BASIC, C

09/1985 – 03/1992

**VIDEOTON AG Budapest-Moskau**

**Systemadministrator, Analytic and Programmer of PC and UNIX Systems**

Installation and support of UNIX operating systems and graphical applications on VT32xx. Programming on UNIX Systems VT32xx (UNIX 5.2), PC-s (VT2x)

DMOS, C, BASIC, grafical applications.

**Other**

---

I have 4 children, my wife is programmer too.

Budapest, October 2012.
